

ACCURATE RAINFALL DATA

CropX Rain Gauge

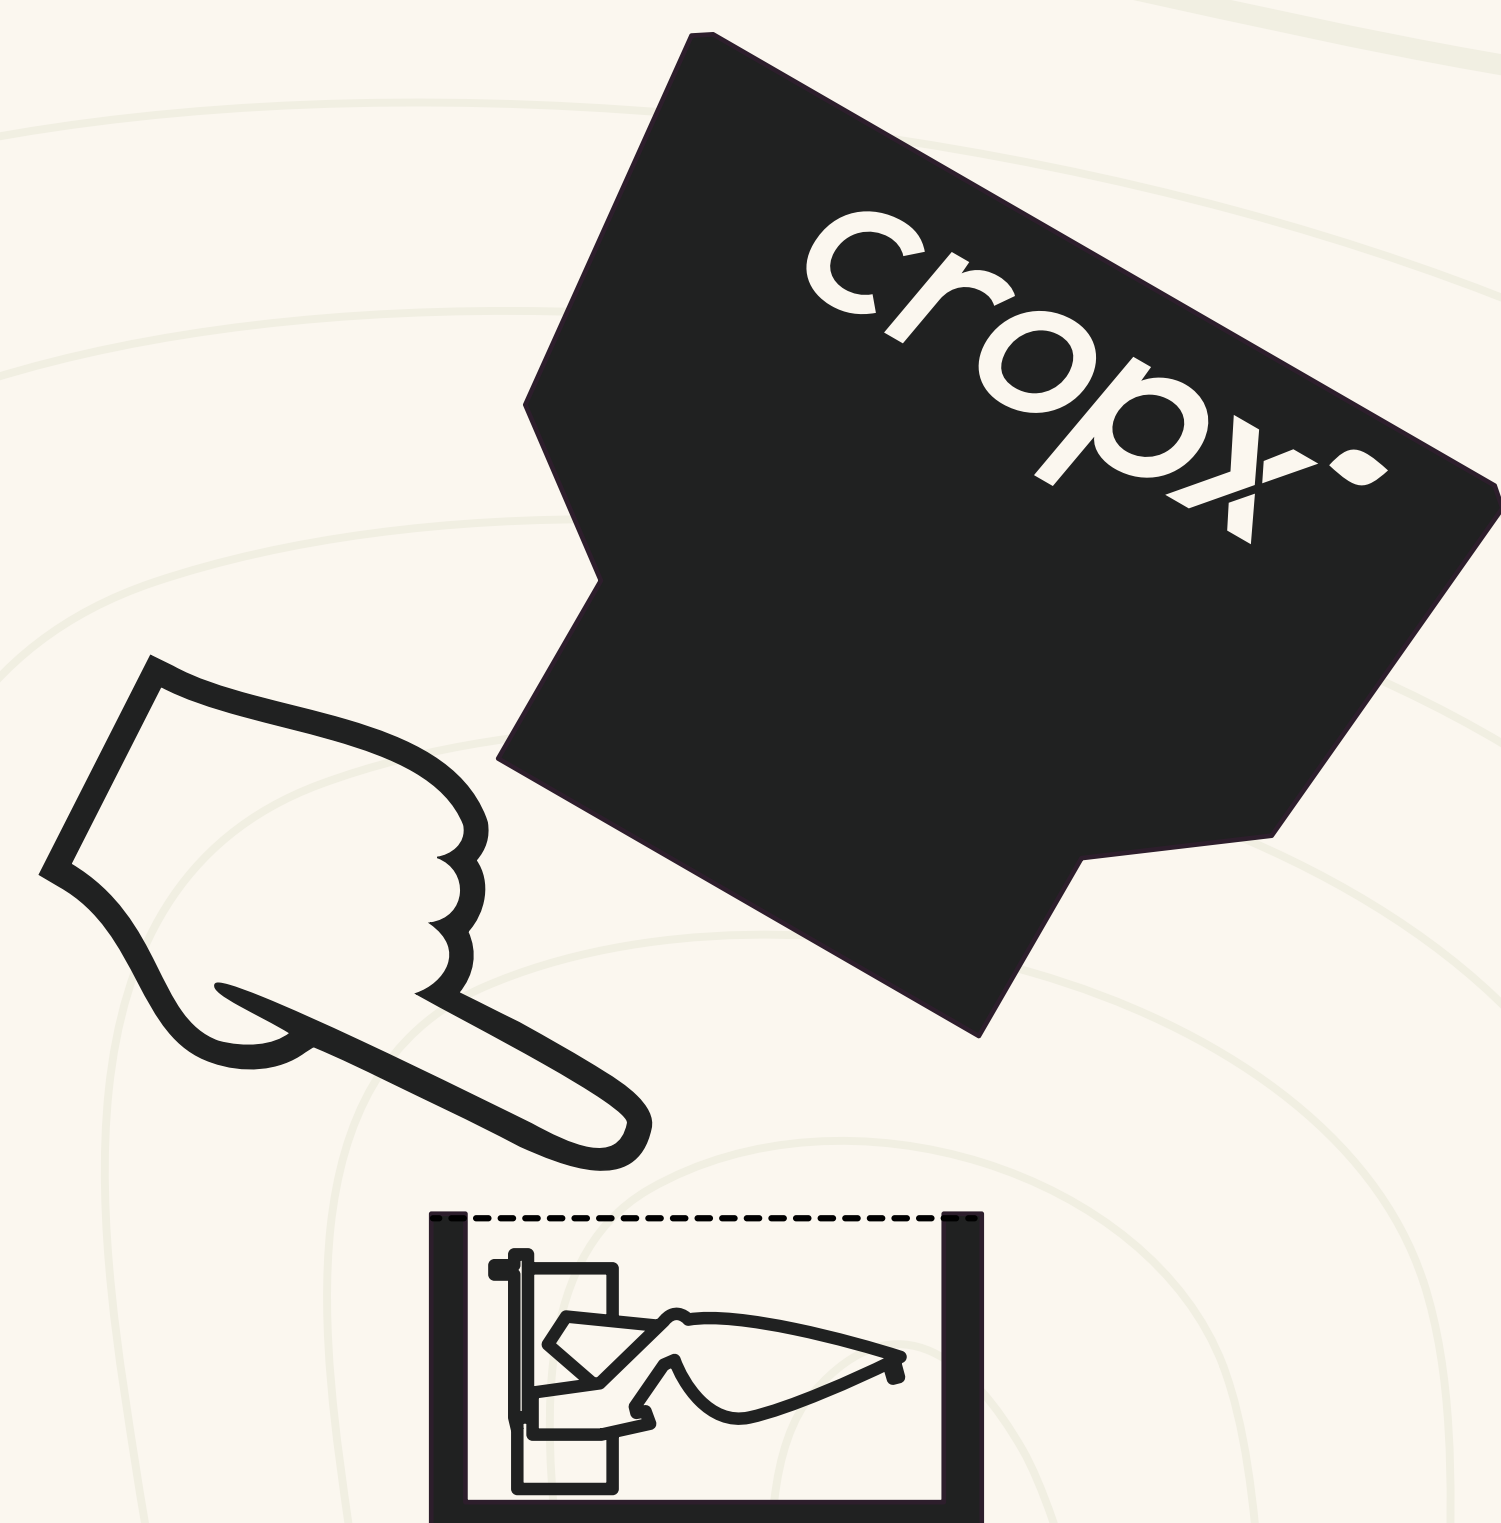

NEW! This year CropX is offering a rain gauge to connect rainfall data to the CropX agronomic farm management system via the CropX telemetry device. This combination provides users with a cost effective solution for increasing data connectivity and generating agronomic insights.

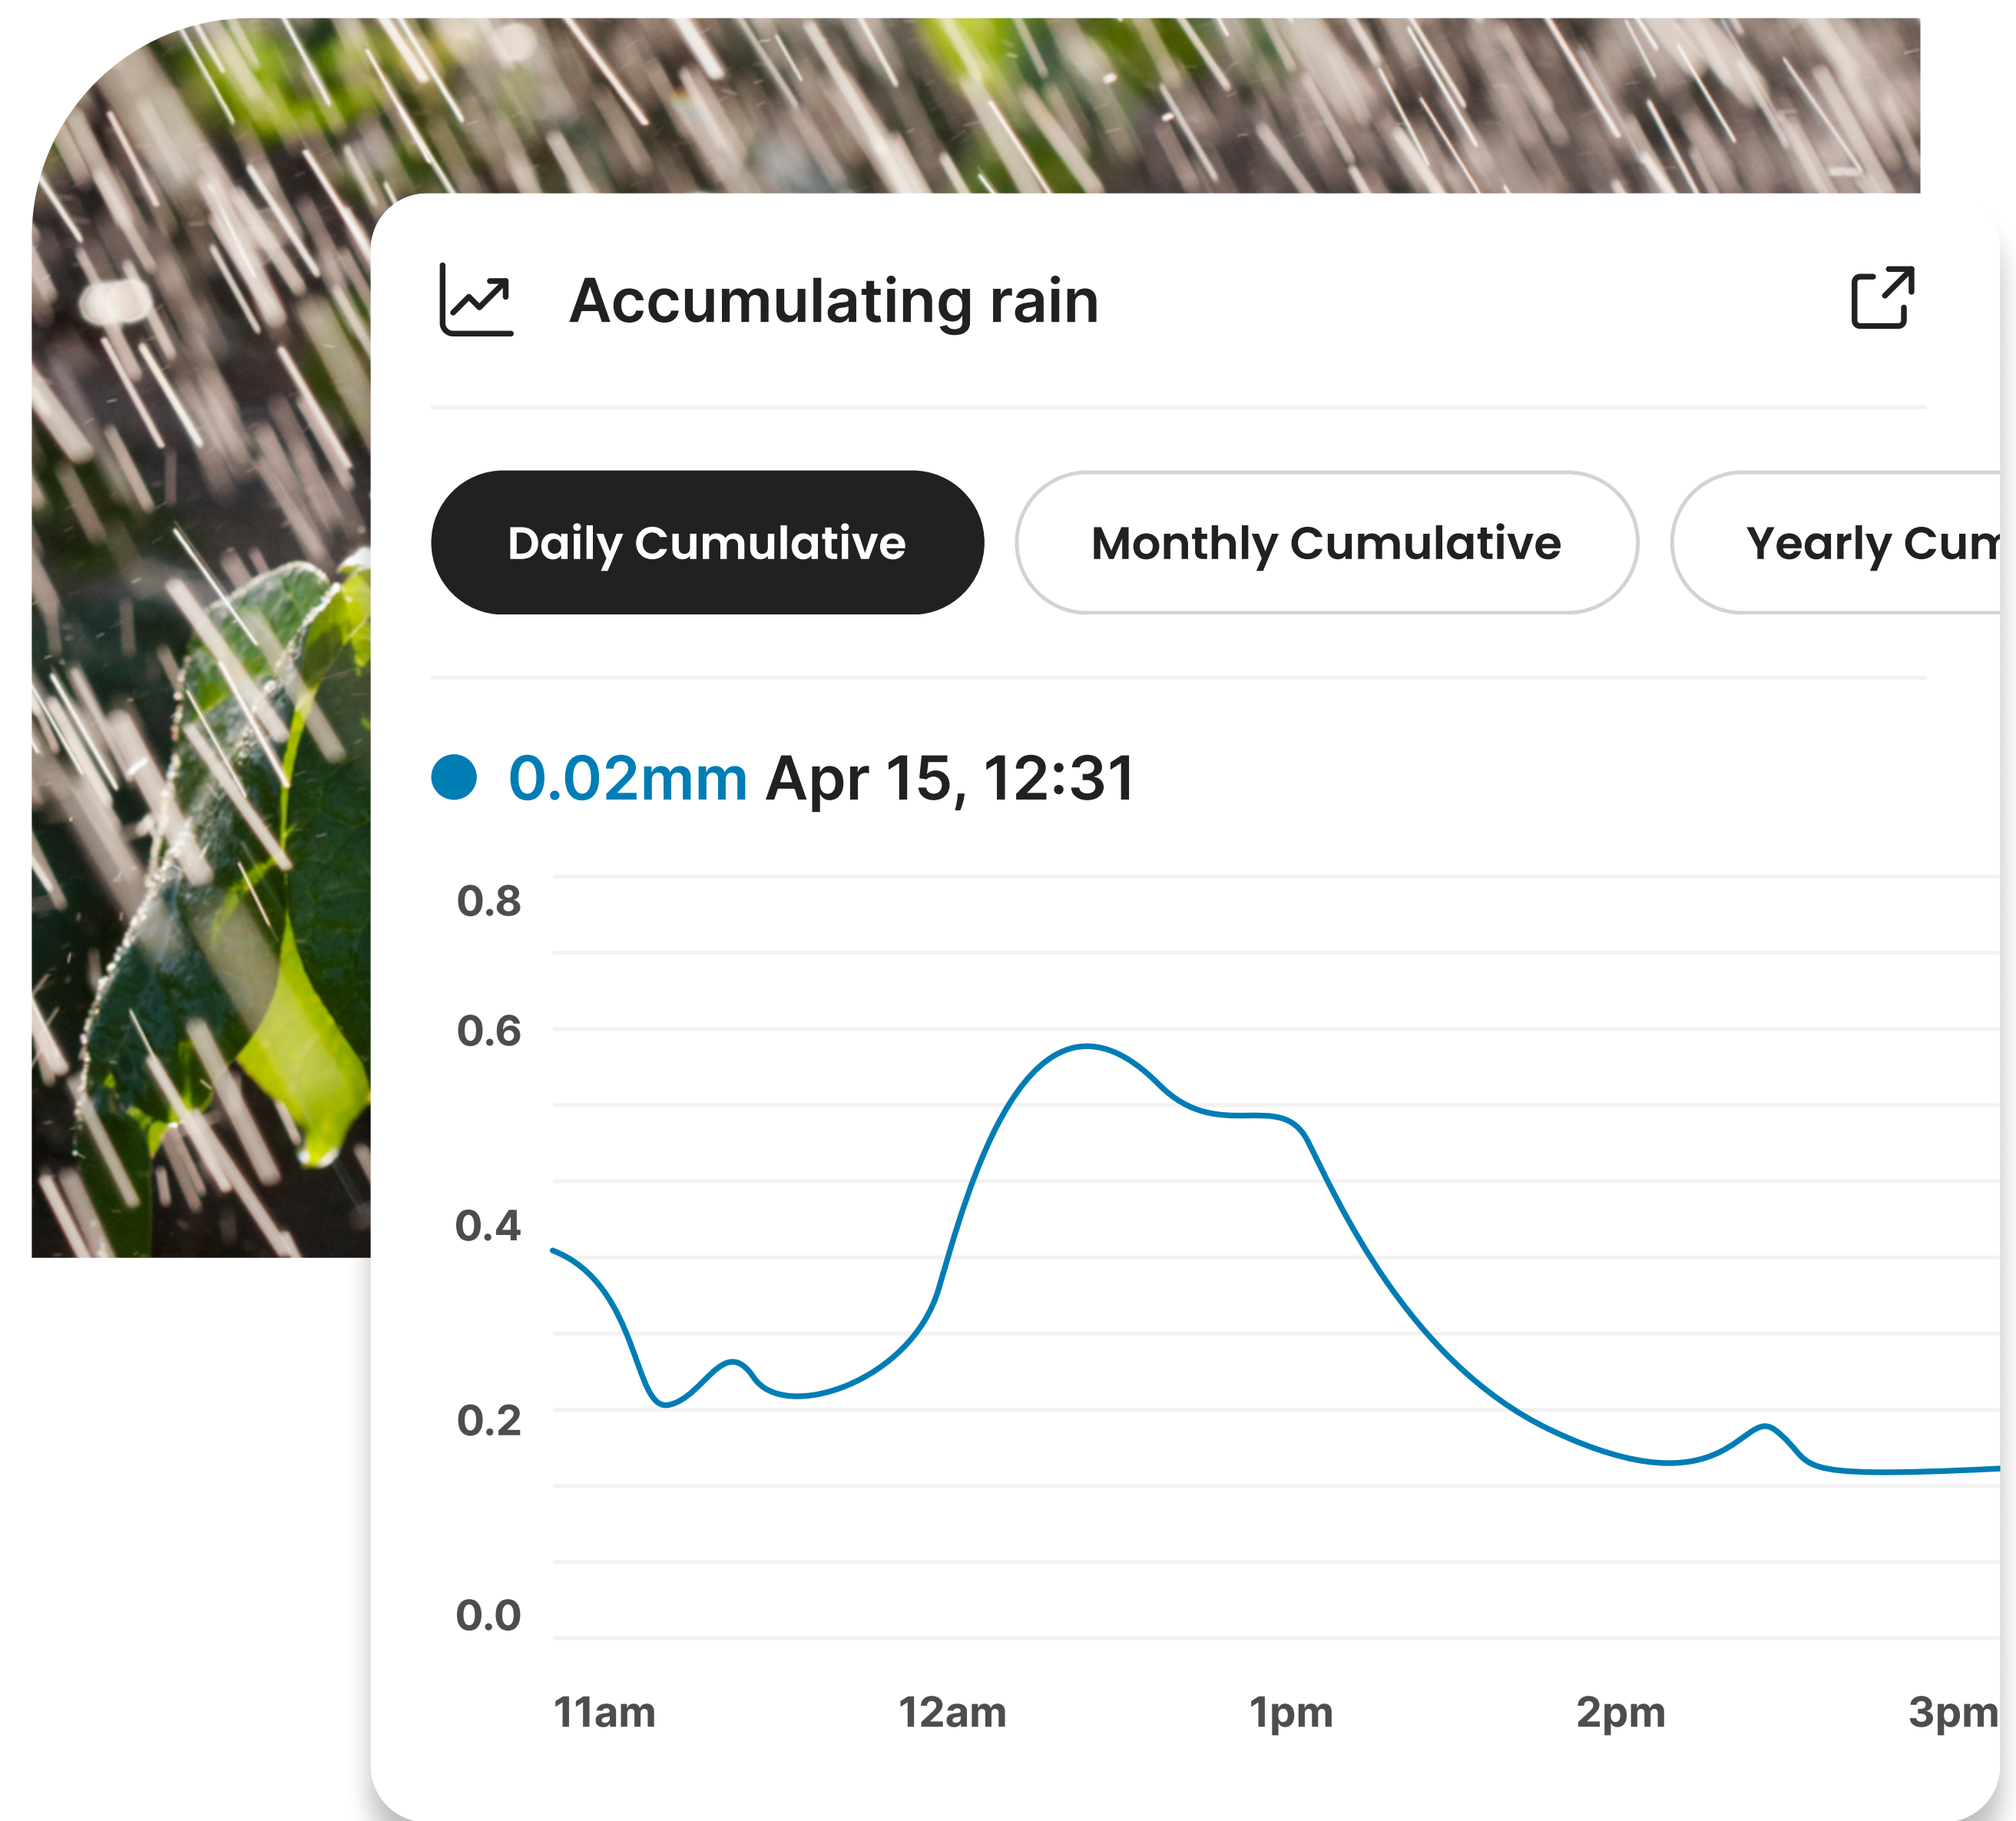

Specifications

- Tipping Spoon Rain Gauge with Self-emptying Bucket
- Dimensions: 6.5 × 10 inches
- Weight: 13.4 ounces
- Accurate to +/- 2%
- Includes: rain cone, bird spikes

CropX Telemetry Device

Connecting the rain gauge via the CropX telemetry device allows users to add more data points to the CropX system for increased data connectivity and more accurate agronomic advice and insights.

Features

- Season-long battery life
- Sleek design with tool-free installation
- Easy device activation
- Ability to connect a broad range of sensors
- Optional solar panel
- Includes: 2 meter cable with PUR mantle and open end wires

Connections

Each CropX telemetry devices has 2 SDI-12+ 2 Pulse counter+ current loop (communication protocol) to connect the following devices:

- Soil sensors – Sentek, Terrasen, Aquacheck
- Rain gauge – CropX, Davis
- Flow meter
- Effluent pond level meter
- Pump switch
